We will rock you-Massimo Cotto 2012-05-16 Quando cantavano "Be-bah- Barbara Aye" i Beach Boys non immaginavano che quella filastrocca che sapeva di mare e sole sarebbe diventata un tormentone eterno, indelebile marchio di fabbrica della band. Andarono su tutte le furie quando la casa discografica la fece uscire come singolo, senza avvertirti. Certe canzoni si pensa che saranno dei faschi colossali, e poi invece Attese non nasce, come, One of Us: Eric Bazilian stava solo parlando a vanvera, divenne la prima canzone che gli venivano in mente, per far contenta la sua ragazza che voleva provare a incendiar qualcosa. Fu più che esaudita, e forse anche per questo, anni dopo divenne sua moglie. Altre canzoni ancora vengono alla luce in sogni, come Let It Be. La “mother Mary” del testo è la madre di Paul che dal regno di Ade, neterminate, sussurrava al figlio di "lasciare che fosse" e in ogni caso di non agitarsi troppo, che la vita è breve. Sono piccole e grandi storie come queste, che Massimo Cotto racconta in We Will Rock You: 709 storie su canzoni di ogni genere e stile. Belle, commoventi, vere, verosimili, folli, assurde, incredibili. Storie che ti restano dentro per sempre, che ti accompagnano per strada e che ti intasca come portafortuna. 709 storie per una compilation gigantesca da cui lasciarsi incuriosire, trascinare, incantare.

Quello che le canzoni non dicono-Davide Pezzi 2021-05-17 Si sono un passo da gigante per l’umanità. No, non lo sblocco sulla Luna degli astronauti Neil Armstrong e Buzz Aldrin, ma la pubblicazione della prima orgasmo song della storia: Je t’aime... moi non plus. Composta da Serge Gainsbourg e da questi interpretata assieme a Jane Birkin, la canzone, per la prima volta nella storia della musica, mette esplicitamente in scena un ampezzo. La canzone erotica è oggetto di uno scandalo esagerato che la porta, tra gli strali della stampa e la condanna della Santa Sede, a venire messa al bando in alcune nazioni, comprese Italia e Regno Unito. Ma l’intrusione è stata come conseguenza di forse al disco una enorme pubblicità gratuita che gli ha vendere milioni di copie. Il “pornodisco” di Gainsbourg genera così l’orgasmo song, ricco filone musicale composto da canzoni erotiche che si inseriscono nei generi più disparati, dalla lounge music alla sexy disco. Una moda musicale che declama tra le lenzuola la propria voglia di libertà, trasformandosi nell’innato stesso della Rivoluzione Sessuale. A colori le più rare copertine dell’Orgasm Song. Link con le canzoni. Contiene interviste a Benito Uru, Detto Mariano, Giancarlo Giomarelli, Rit Samaritano, Tiziano Fossi, Toni Santagata.

I segreti delle religioni-Giorgio Nadali 2015-02-12 La parola chiave di questo libro è “segreto”, senza censura. Sarà il lettore a giudicare. La fede religiosa è qualcosa di molto particolare e tutto ciò che ruota intorno ad essa è per natura avvolto dal mistero. Così anche le regole, i testi sacri, i riti, i templi che nei secoli sono stati espressione del sacro, arcaico e contemporaneo. Dal Cristianesimo alle sette, passando per l’Ebraismo, l’Islam, il Buddhismo e le altre religioni del mondo. In questo suo decimo libro, Giorgio Nadali - giornalista per diverse riviste nazionali e studioso dei fenomeni religiosi - svela tutti i segreti, anche i più “scomodi”, legati al mondo della fede. Nelle pagine di questo libro, tra chiarezza descrittiva e forza divulgativa, scoprirete gli enigmi dei testi sacri, i misteri legati alle religioni, ai santi e all’eroticismo nascosto della vera santità, ai luoghi sacri di tutto il mondo. I segreti del clero cattolico, dagli stipendi sacri agli antipapi viventi, i segreti delle chiese cristiane, dalle messe con i serpenti, alle chiese gay, dai segreti della storia ai rituali sessuali dell’Indùismo, i festival osé dello Shintoismo, i segreti taoisti a luci rosse e la pornografia sacra. Dalla teologia della prosperità e del successo, alle scoperte e invenzioni legate alla religione, ai rituali taoisti dell’immortalità, dai rituali estremi in alcune religioni alla condizione della donna in tutte le religioni e i segreti interreligiosi, tra vizi e virtù... E poi i fenomeni soprannaturali, l’aidilii... Esercizi, miraggi e apparizioni tra veri mistici e autentici ciarlatani. La religione fa bene alla salute? Gli studi scientifici. L’influsso culturale e sociale della religione nella laicità di tutti i giorni e il futuro delle religioni, con i dati aggiornati di credenti e non credenti in tutto il mondo. E ancora, potrete approfondire il controverso rapporto tra fede e scienza, sesso e religione, scienza e miracoli, angelico e diabolico, cibi sacri e tabù, o

The Castle on Sunset-Shawn Levy 2020-04-28 Since 1929, Hollywood's brightest stars have flocked to the Chateau Marmont as if it were a second home. An apartment-building-turned-hotel, the Chateau has been a backdrop for generations of gossip and folklore: where director Nicholas Ray slept with his sixteen-year-old Rebel Without a Cause star Natalie Wood; Jim Morrison swung from the balconies; John Belushi suffered a fatal overdose; and Lindsay Lohan got the boot after racking up nearly $50,000 in charges in less than two months. But despite its mythic reputation, much of what has happened inside the Chateau's walls has eluded the public eye—until now. With wit and insight, Shawn Levy recounts the wild revellies and scandalous liaisons, the creative breakthroughs and marital breakdowns, the births and deaths to which the hotel has been a party. Vivid, salacious, and richly informed, The Castle on Sunset is a glittering tribute to Hollywood as seen from inside the walls of its most hallowed hotel.

The Terrible Privacy of Maxwell Sim-Jonathan Coe 2011-03-08 Maxwell Sim can't seem to make a single meaningful connection. His absent father was always more interested in poetry; he maintains an e-mail correspondence with his estranged wife, though under a false identity; his incomprehensible teenage daughter prefers her Blackberry to his conversation; and his best friend since childhood is refusing to return his calls. He has seventy-four friends on Facebook, but nobody to talk to. In an attempt to stir himself out of this horrible rut, Max quits his job as a customer liaison at the local department store and accepts a strange business proposition that falls in his lap by chance: he's hired to drive a Prius full of toothbrushes to the remote Shetland Islands, part of a misguided promotional campaign for a dental-hygiene company intent on illustrating the slogan "We Reach Furthest." But Max's trip doesn't go as planned, as he's unable to resist making a series of impromptu visits to important figures from his past who live en route. After a string of cruelly anticipated and intensely weird adventures, he finds himself falling in love with the soothing voice of his GPS system ("Emma") and obsessively identifying with a sailor who perpetrated a notorious hoax and subsequently lost his mind. Eventually Max begins to wonder if perhaps it's a severe lack of self-knowledge that's hampering his ability to form actual relationships.

Secrets from the Center of the World—Joy Harjo 2021-10-19 “My house is the red earth, it could be the center of the world.” This is Navajo country, a land of mysterious and delicate beauty. “Stephen Strom’s photographs lead you to that place,” writes Joy Harjo. “The camera eye becomes a space you can move through into the powerful landscapes that he photographs. The horizon may shift and change all around you, but underneath it is the heart with which we move.” Harjo’s prose poems accompany these images, interpreting each photograph as a story that evokes the spirit of the Earth. Images and words harmonize to evoke the mysteries of what the Navajo call the center of the world.

Stepbrother Dearest—Penelope Ward 2014-09-28

The Death Factory—Greg Iles 2014-03-18 From the #1 New York Times bestselling author of the Natchez Burning trilogy—Natchez Burning, The Bone Tree, and the upcoming Mississippi Blood—comes this e-original novella featuring former prosecutor Penn Cage, a family of secrets and justice denied, plus an excerpt from Natchez Burning. Death is the end, and if a man doesn’t speak before it silences him, then his deepest secrets go with him. When a heart attack sends Penn’s father, Tom Cage, to the ER, Tom begs that his father be kept in his care, a dying devotion. But when Penn arrives, Tom denies ever making the request—keeping his secrets for another day. The emergency burhs Penn back to a chilling case in Houston, where he worked in a DA’s office known as the “death factory,” which sent more killers to death row than any other in America. While Penn cares for his ailing wife, a tormented forensic technician brings him evidence of a crime lab in chaos, throwing past convictions into doubt and begging Penn to prevent an imminent travesty of justice. With the desperation of a man fighting death in his own home, Penn must find a way to bring the machinery of the death factory to a halt.

Brokeback Mountain—Annie Proulx 2005 The friendship between Ennis del Mar and Jack Twist, two cowboys, evolves into an intimate relationship while they are working together as a herder and camp tender, sharing a bond that spans many years and frequent separations.

Right Place, Right Time—Bob Gruen 2020-10-20 An action-packed memoir that takes readers front row, backstage, and on the road with rock and roll’s hardest-working photographer Bob Gruen is one of the most well-known and respected photographers in rock and roll. From John Lennon to Johnny Rotten, Muddy Waters to the Rolling Stones; Elvis to Madonna; Bob Dylan to Keanu Reeves, Gruen has chronicled the music scene for more than 50 years in photographs that have captured the world’s attention. Now in paperback, Right Place, Right Time is Gruen’s personal journey from discovering a love of photography in his mother’s darkroom to being named the world’s premiere rock photographer by the New York Times. With fast-paced stories and iconic images, Gruen gives the reader both a front row seat and a backstage pass to the evolution of American music culture over the last five decades. In the words of Alice Cooper, “Bob had the ultimate backstage pass. Can you imagine the stories he’s got?”

Rage—Bob Woodward 2020-09-15 Rage is an unprecedented and intimate tour de force of new reporting on the Trump presidency facing a global pandemic, economic disaster and racial unrest. Woodward, the #1 international bestselling author of Fear: Trump in the White House, has uncovered the precise moment the president was warned that the Covid-19 epidemic would be the biggest national security threat to his presidency. In dramatic detail, Woodward takes readers into the Oval Office as Trump’s head pops up when he is told in January 2020 that the pandemic could reach the scale of the 1918 Spanish Flu that killed 675,000 Americans. In 17 on-the-record interviews with Woodward over the months—an utterly vivid window into Trump’s mind—the president provides a self-portrait that is part denial and part combative interchange mixed with surprising moments of doubt as he glimpses the perils in the presidency and what he calls the “dynamite behind every door.” At key decision points, Rage shows how Trump’s responses to the crises of 2020 were rooted in the instincts, habits and style he developed during his first three years as president. Revisiting the earliest days of the Trump presidency, Rage reveals how Secretary of State James Mattis, Secretary of Defense James Mattis, Secretary of State Mike Pompeo, Director of National Intelligence Dan Coats and several others held the country safe as the president dismantled any semblance of collegial national security decision making. Rage draws from hundreds of hours of interviews with firsthand witnesses as well as participants’ notes, emails, diaries, calendars and confidential documents. Woodward obtained 25 never-seen personal letters exchanged between Trump and North Korean leader Kim Jong Un, who describes the bond between the two leaders as out of a “fantasy film.” Trump insists to Woodward he will triumph over Covid-19 and the economic calamity. “Don’t worry about it, Bob. Okay?” Trump told the author in July. “Don’t worry about it. We’ll get to do another book. You’ll find I was right.”

Secrets of the Best Chefs—Adam Roberts 2012-11-13 Learn to cook from the best chefs in America Some people say you can only learn to cook by doing. So Adam Roberts, creator of the award-winning blog The Amateur Gourmet, set out to cook in 50 of America’s best kitchens to figure out how any average Joe or Jane can cook like a seasoned pro. From Alice Waters’ garden to José Andrés’s home kitchen, it was a journey peppered with rock-star chefs and dedicated home cooks unified by a common passion, one that Roberts understands deeply and transfers to the reader with flair, thoughtfulness, and good humor: a love and appreciation of cooking. Roberts adapts recipes from Hugh Acheson, Lidia Bastianich, Roy Choi, Harold Dieterle, Sara Moulton, and more. The culmination of that journey is a cookbook filled with lessons, tips, and tricks from the most admired chefs in America, including how to properly dress a salad, bake a no-fail piecrust, make light and airy pasta, and stir-fry in a wok, plus how to improve your knife skills, eliminate wasteful food practices, and create recipes of your very own. Most important, Roberts has adapted 150 of the chefs’ signature recipes into totally doable dishes for the home cook. Now anyone can learn to cook like a pro!

The Control of Nature-John McPhee 2011-04-01 While John McPhee was working on his previous book, Rising from the Plains, he happened to walk by the engineering building at the University of Wyoming, where words etched in limestone said: “Strive on—the control of Nature is won, not given.” In the morning sunlight, that central phrase—“the control of nature”—seemed to sparkle with unintended ambiguity. Bilateral, symmetrical, it could with equal speed travel in opposite directions. For some years, he had been planning a book about places in the world where people have been engaged in all-out battles with nature, about (in the words of the book itself) “any struggle against natural forces—heroic or venal, rash or well advised—when human beings conscript themselves to fight against the earth, to take what is not given, to rout the destroying enemy, to surround the base of Mt. Olympus demanding and expecting the submission of the gods.” His interest had first been sparked when he went into the Atchafalaya—the largest river swamp in North America—and had learned that virtually all of its waters were metered and rationed by a U.S. Army Corps of Engineers’ project called Old River Control. In the natural cycles of the Mississippi’s deltaic plain, the time had come for the Mississippi to change course, to shift, its mouth more than a hundred miles. McPhee and his crew, together with the Atchafalaya Delta Waterways Improvement Project, the Corps, the Atchafalaya National Wildlife Refuge, and other distributary branches. The United States could not afford that—for New Orleans, Baton Rouge, and all the industries that lie between would be cut off from river commerce with the rest of the nation. At a place called Old River, the Corps therefore had built a great fortress—part dam, part valve—to restrain the flow of the Atchafalaya and compel the Mississippi to stay where it is. In Iceland, in 1973, an island split open without warning and huge volumes of lava began moving in the direction of a harbor scarcely half a mile away. It was not only Iceland’s premier fishing port (accounting for a large percentage of Iceland’s export economy) but it was also the only harbor along the nation’s southern coast. As the lava threatened to fill the harbor and wreck its mighty harbor, an Icelandic physicist suggested a way to fight against the flowing red rock—initiating an all-out endeavor unique in human history. On the big island of Hawaii, one of the world’s two most eruptive hot spots, people are not unmindful of the Icelandic example. McPhee went to Hawaii to talk with them and to walk beside the edges of a molten lake and incandescent rivers. Some of the more expensive real estate in Los Angeles is up against mountains that are rising and disintegrating as rapidly as any in the world. After a complex coincidence of natural events, bulldozers will flow out of these mountains like fish eggs, mixed with mud, sand, and smaller rocks in a cascading mass known as debris flow. Plucking up trees and cars, bursting through doors and windows, filling up houses to their eaves, debris flows threaten the lives of people living in and near Los Angeles’ famous canyons. At extraordinary expense the city has built a hundred and fifty stadium-like basins in a daring effort to catch the debris. Taking us deep into these contested territories, McPhee details the strategies and tactics through which people attempt to control nature. Most striking in his vivid depiction of the main contestants: nature in complex and diverse guises, and those who would attempt to wrest control from her—stubborn, often ingenious, and always arresting characters.

Global Trends 2030-Office of the Director of National Intelligence Council 2017-03-11 This publication covers global megatrends for the next 20 years and how they will affect the United States. This is the first installment of the National Intelligence Council’s series aimed at providing a framework for thinking about possible futures and their implications. The report is intended to stimulate strategic thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories during the next 15-20 years by identifying critical trends and potential discontinuities. The authors distinguish between megatrends, those factors that will likely occur under any scenario, and game-changers, critical variables whose trajectories are far less certain. NIC 2012-011. Several innovations are included in Global Trends 2030, including: a review of the four previous Global Trends reports, input from academic and other experts around the world, coverage of disruptive technologies, and a chapter on the potential trajectories for the US role in the international system and the possible impact on future international relations.
